### Site set-up progress

#### September

- ✓ 10 site initiation visits completed (via Zoom)
- ✓ 9 sites opened to recruitment

#### First half of October

- ✓ 3 more site initiation visits completed
- ✓ 2 sites opened to recruitment (4 to go)
- ✓ 32 more randomisations

For sites that are open, please remember that your first screening log is due two weeks after your opening date, and fortnightly from then on.

#### Nominate a clinical champion!

Tell us about a team member with a short description of what they've done so we can recognise them.

### FAQs and Contact

We now have a FAQs document available which will be sent out to all sites and updated regularly. For any other questions, please do contact the ICNARC team;

#### Oxy-PICU Study Team

**Email:** oxypicu@icnarc.org  
**Telephone:** 020 7269 9277  
**Website:** www.icnarc.org

### STUDY OPENED!

**Oxy-PICU** officially opened to recruitment on 1 September 2020.

Congratulations to the team at

**Bristol Royal Hospital for Children**

for recruiting the first Oxy-PICU patient!

### ICNARC team

Daisy Wiley is now on maternity leave, and Irene Chang is the new Oxy-PICU Trial Manager. You can contact Irene at [irene.chang@icnarc.org](mailto:irene.chang@icnarc.org).

### Treatment targets

As a reminder, oxygen saturation target ranges for the study are:

- **Conservative group: 88-92%**
- **Liberal group: >94% (95-100%)**

### Twitter

@OxyPICU

We are now on Twitter and will be sharing info on the study at #OxyPICU. Please feel free to get involved!

### MACRO

The e-CRF web portal is now available for data input at <https://ctu.icnarc.org/macro/>. Please ensure that your pop-up blocker is set to allow pop-ups from this site, as the portal opens in a new window. For any queries, contact the Oxy-PICU inbox.

### PICANet

Oxy-PICU is nested within the PICANet audit to help reduce the burden of data collection for site staff. If your unit participates in the PICANet audit, then please inform your unit's PICANet lead and ask them to record 'Oxy-PICU RCT' and the patient's Trial Number in the field 'Is this patient on a clinical trial?' for each recruited patient. Guidance on extracting data from PICANet web will be provided in due course.
