

Oxy-PICU Newsletter

Issue 3, March 2021

Over 400 patients randomised!

Internal pilot

The six-month internal pilot phase was completed on 28 February 2021. Thanks everyone for your efforts on the study thus far! The Trial Steering Committee met earlier this month and confirmed support of the plan going forward and trial continuation. We will submit the internal pilot report to the NIHR soon and will share results when available.

Please continue entering data on the e-CRF web portal at <https://ctu.icnarc.org/macro/>.

Milestones

- All **15** sites opened to recruitment
 - 417** patients recruited as of 28th March
- Congratulations to **Great North Children's Hospital** for recruiting the **350th patient**, and to **Bristol Royal Hospital for Children** for the **400th patient**!

Keep up the amazing work, everyone!

Top recruiters

By participants:

116	Great Ormond Street Hospital
42	St George's University Hospital
38	Birmingham Children's Hospital
36	Royal Manchester Hospital
34	Southampton Children's Hospital

By % recruited out of eligible patients:

92.9%	St Mary's Hospital
90.5%	St George's Hospital
81.8% <	Bristol Royal Hospital for Children
	John Radcliffe Hospital
81.6%	Great Ormond Street Hospital

Oxy-PICU Stars!

Sophie Graves and **Ellie Bebbington** in **Manchester**, for their excellence in reviewing all admissions to identify eligible patients.

Bethany Woodford in **Southampton** for adding notes if patients have gone out of the target SpO2 range, making data collection easier and more accurate.

Screening logs

Many thanks to everyone for continuing to submit screening logs every fortnight! Please keep going and don't forget to remove any patient identifiable information prior to submission.

PICANet

Your PICANet lead should record '**Oxy-PICU RCT XXXXX**' (for **Trial Number**) in the '*Is this patient on a clinical trial?*' field for each recruited patient.
