Issue 8, June 2022

Recruitment target reached!

Milestones

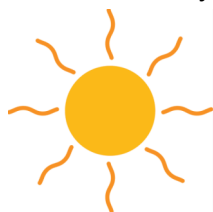

- Recruitment target of **2040** patients was reached on **23 May 2022**.
- Congratulations to all sites and a huge thank you for your hard work recruiting patients to the study!
- 12-month follow-up is ongoing - response rate is currently around **40%**.

Data lock

Data lock for the primary outcome analysis is expected at the end of July/beginning of August.

Please continue entering outcome and organ support data for all participants. For patients who were transferred to other hospitals, we do request that you contact relevant teams to obtain organ support data and discharge dates. ICNARC have links with other hospitals so if this is proving challenging, please let us know so we can help!

Top recruiters

By participants:

320	Great Ormond Street Hospital
218	Evelina London Children's Hospital
197	St Mary's Hospital, London
169	St George's Hospital, London
166	Southampton Children's Hospital

By % eligible patients recruited

96.1%	St Mary's Hospital
92.9%	St George's Hospital
86.6%	Evelina London Children's Hospital
82.3%	Great Ormond Street Hospital
77.8%	Nottingham Children's Hospital

Oxy-PICU Stars!

Sarah Darnell (St Mary's) for her excellence in investigating missing data for transferred patients and **Lynne Bell (Great North, Newcastle)** for quickly responding to follow-up queries.

Follow-up

Questionnaires are now going out to parents and guardians at 12 months – many thanks for your support with completing survival status and DCRs to enable follow-up.

Please do complete consent/contact details on MACRO, outcome page when possible at 12 months, and keep an eye out for follow-up DCRs.

PICANet download

Guidance for downloading the data extract from PICANet Web was recently sent out. Please send extracts for all participants with PICANet Numbers available, and also input PICANet Numbers on MACRO, so we can cross-check these for completeness.
